Visitation has been restricted to prevent the spread of novel coronavirus (COVID-19)

**PREVENTION**

- Cover your mouth and nose with a tissue when you cough or sneeze.
- Practice hand hygiene – wash your hands with soap and water or use an alcohol-based hand rub.
- Don't touch your face with unwashed hands; it's the easiest way for germs to enter your body.

**NOTE:** Anyone older than 60 years, those with underlying health conditions and those with suppressed immune systems are most at risk for COVID-19.
