

COVID-19 VACCINE

Latest News & Resources

January 13, 2021

Protecting our Seniors

Hoosiers 70 years of age and older are now eligible to receive the vaccine. The Indiana Department of Health's vaccine distribution plan has a goal of saving the most lives and having the greatest impact on reducing hospitalizations. Those age 70 years of age and older will be the next group to be announced who will be eligible for the vaccine. Read [MORE](#).

Find a vaccine clinic near you

More than 80 vaccine clinics around the state representing all 92 counties were added this week to the existing hospital locations on the Indiana vaccination site map. Eligible residents can register for an appointment at ourshot.in.gov or call 211 between 8 a.m. and 8 p.m. EST, seven days a week. Click [HERE](#) for a complete map of vaccine clinics.

80

vaccine clinics were added this week throughout Indiana.

Long-term care residents and vaccine

Residents of long-term care (LTC) facilities have begun receiving their vaccines through a partnership with Walgreens and CVS pharmacies. Check with your loved one's facility to find out when vaccination is planned. Learn more about guidance for LTC residents and their families [HERE](#).

Vaccination dashboard is live!

The Indiana COVID-19 vaccination dashboard is live and updated by noon daily. The dashboard includes newly-reported vaccinated individuals, total individuals vaccinated, fully vaccinated individuals (those receiving their second dose), county distribution numbers and demographic information. Access the dashboard [HERE](#).

Vaccine manufacturers

The Pfizer and Moderna vaccines are now available, and more are being developed. Read about the latest developments from [Johnson & Johnson](#) and [AstraZeneca](#).

Updated vaccine FAQ's can be found [HERE](#). Ask your question about vaccine safety, scheduling (first and second dose,) vaccine administration and more.
